WHO'S USING IT?

Don't take my word for it.

The screenshot shows a web browser window with the URL <http://31three.com/>. The page title is "31THREE - The Design Studio of Jesse Bennett-Chamberlain". The navigation menu includes "HOME", "WORK", "WEBLOG", and "CONTACT". The main heading is "Creative services for the design-challenged developer". Below this is a testimonial from Roy Rubin, Varien, praising Jesse Bennett-Chamberlain's professionalism and talent. To the right is a large image of a butterfly. Below the testimonial is a section titled "Highlighted Work for Developers" with three featured projects: ExpressionEngine (March 2007), Swirl (April 2006), and Carleton University (March 2007). Each project includes a small image, a quote, and the client's name. On the right side of the page is a "Weblog Entries" section listing several articles with their respective comment counts and dates.

Creative services for the design-challenged developer

As a developer, you're an extremely creative individual. Getting your websites to behave in Internet Explorer is proof enough... you are creative. Even so, you may not have the time or know-how needed to get the design of your site looking as clean as your code. That's OK. I take design as seriously as you take your markup. Have a look around, and [get in touch](#) if you think we'd work well together.

"Jesse Bennett-Chamberlain has been an absolute pleasure to work with. He brings a level of professionalism & talent to a project that is rare to find."

Roy Rubin, Varien

Highlighted Work for Developers

ExpressionEngine
March 2007

"Jesse Bennett-Chamberlain is a very cinematic designer. His designs feel big; they command attention. His detail work is better than anyone I know."

Rick Ellis
EllisLab CEO

Swirl
April 2006

"On the critical path, Jesse quickly meshed with our developers, and delivered a high-quality, standards-compliant product that was useable immediately."

Shawn W. Taylor
Swirl

Carleton University
March 2007

"While Carleton had our own developers, we needed fresh design ideas. Jesse's work is a perfect balance of beautiful graphics and clean information design."

Danny Brown
Web Architect, Carleton University

WE SPEAK PEOPLE*

Our ears are burning
"Blue Flavor designed an intuitive and beautiful site that encourages members to

The screenshot shows a web browser window with the address <http://veerle.duoh.com/>. The page title is "Veerle's blog 2.0 - Webdesign - XHTML CSS | Graphic Design". The browser's search bar contains "Google".

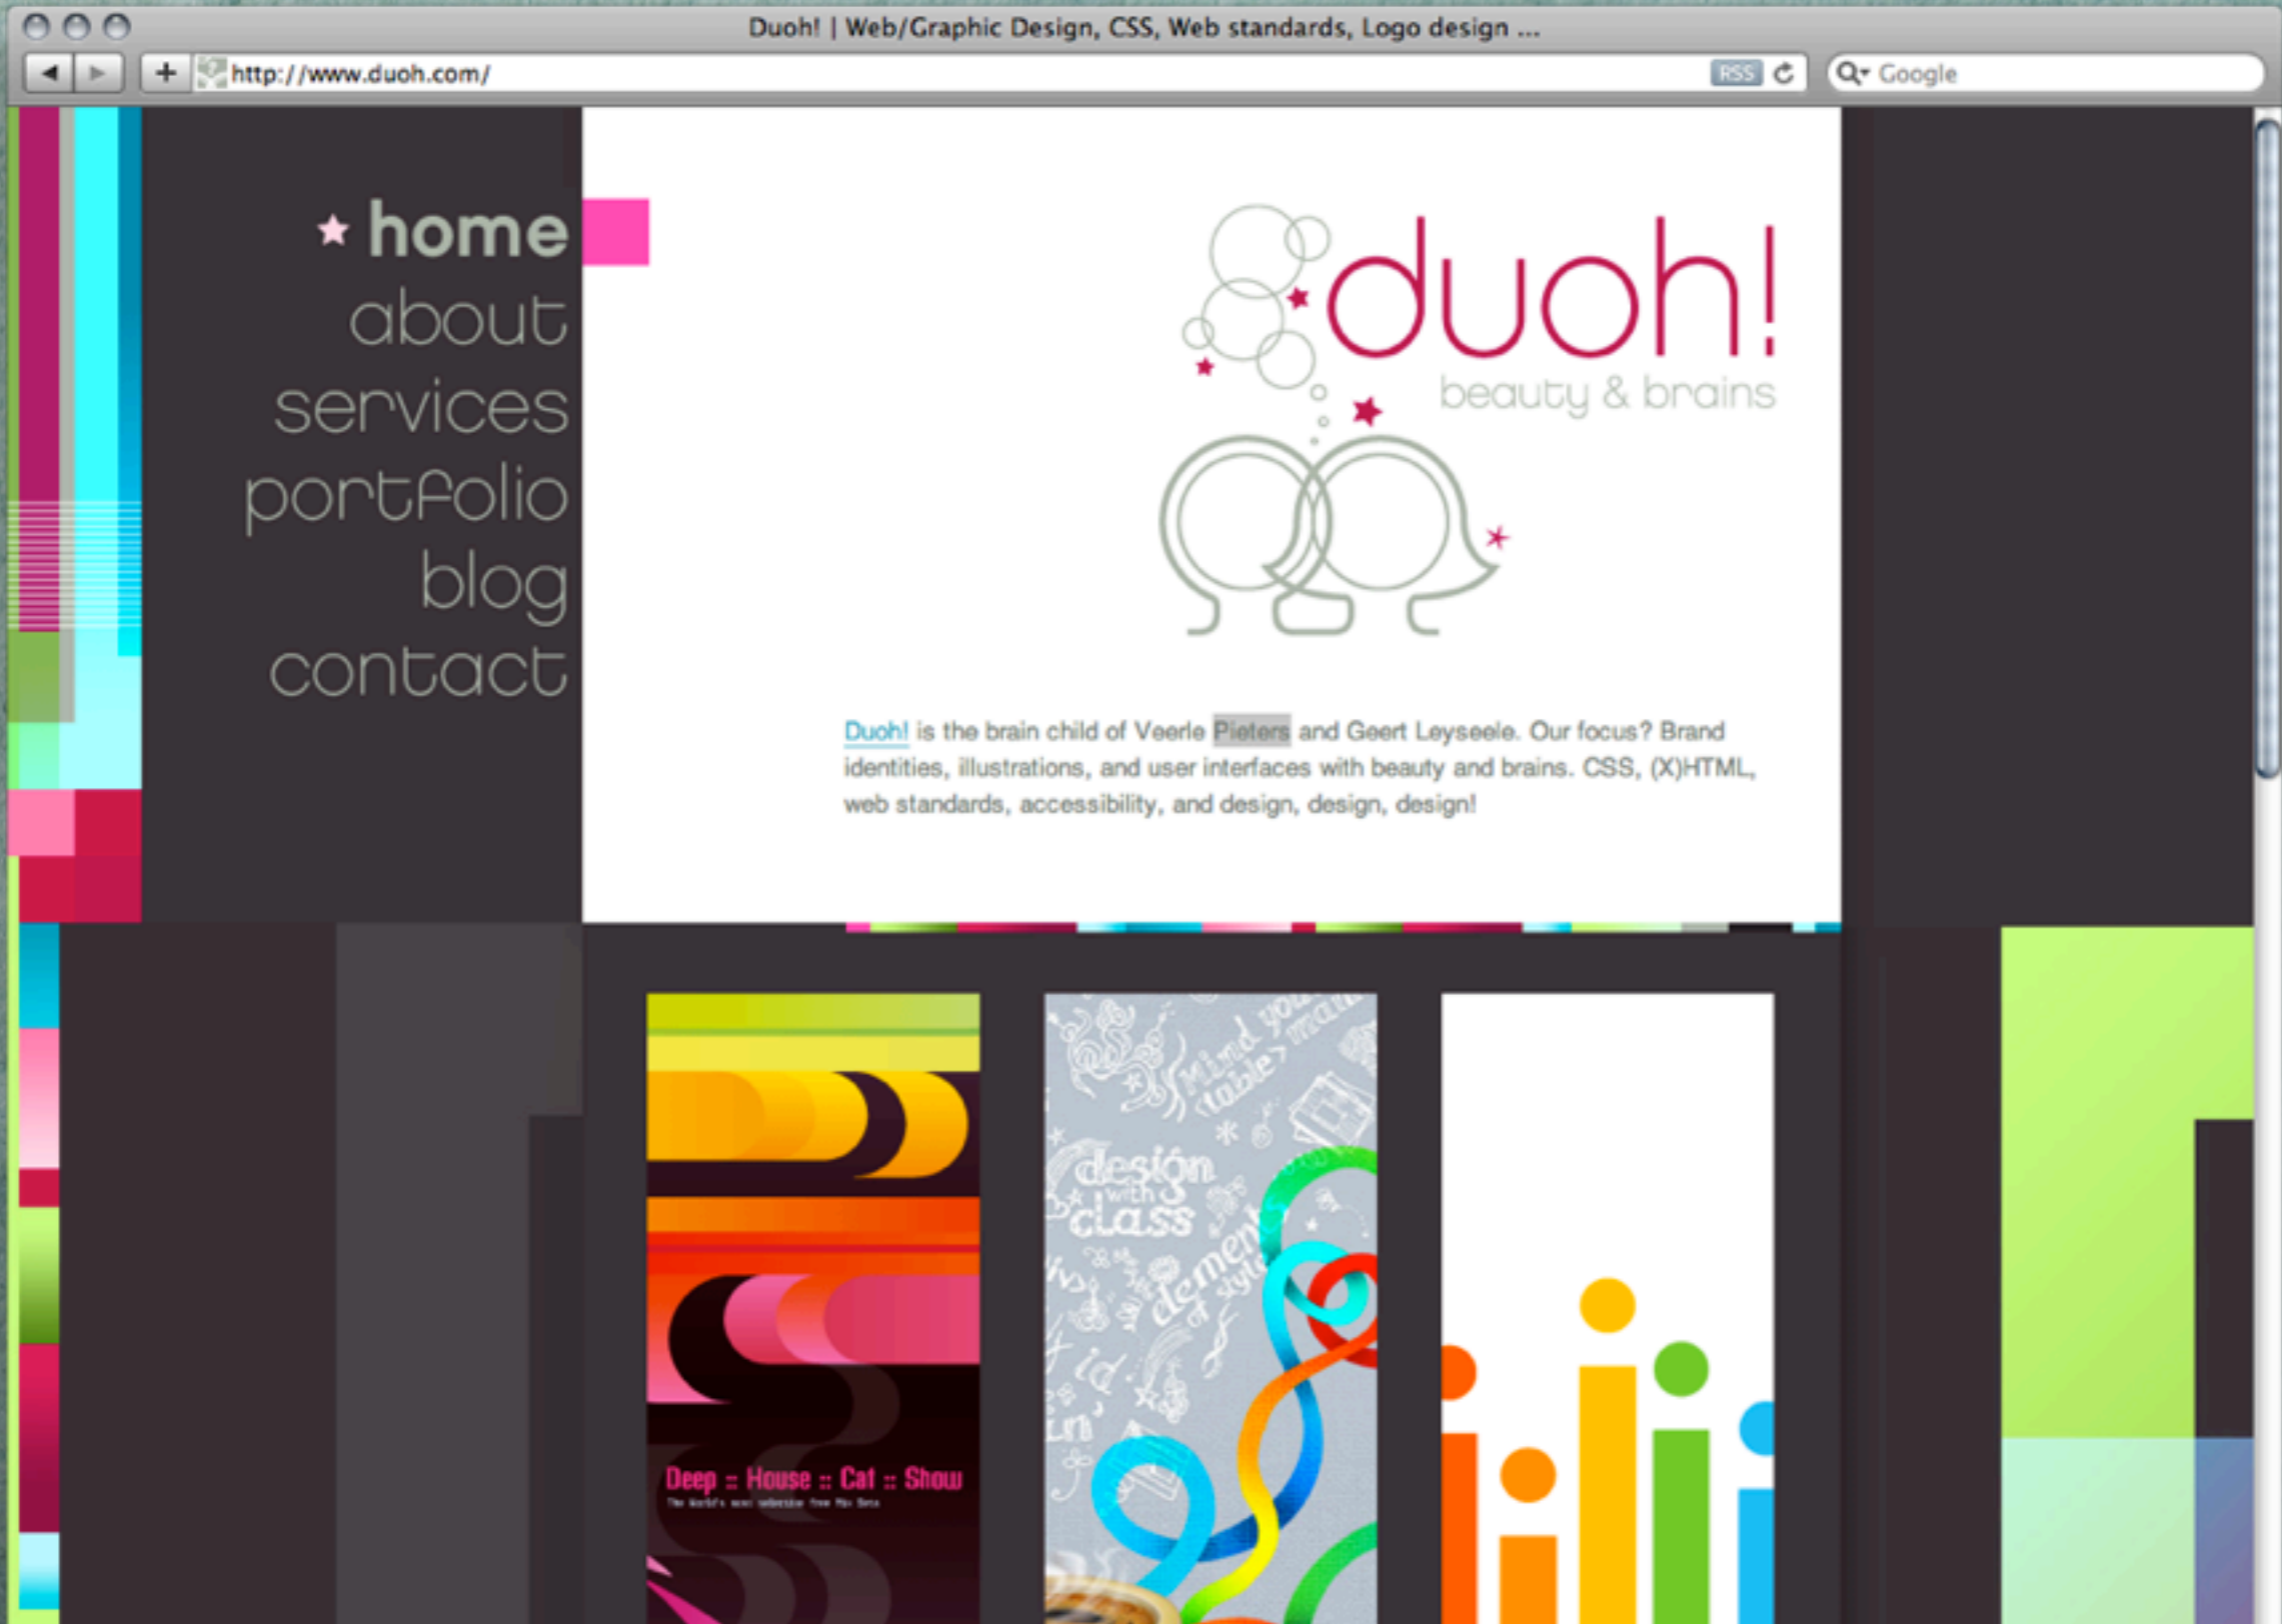

The website header includes "login" and "register" links, and a "skip to content" link. The main navigation menu contains "home", "about", "archive", "contact", and "links".

The main content area features a large banner for "veerle's blog" with an illustration of a woman. Below the banner is a post titled "Win a free copy of Phantasm CS Studio" dated "2009 at 03.10 pm" and posted by "Veerle Pieters". The post text reads: "Do you remember my article about [Phantasm CS Studio](#)? Well, [Astute Graphics](#) is now holding a [design competition](#), and in honor of the launch I've been offered to give away a copy of this fabulous [Illustrator plugins serie](#)." Below the post are links for "permanent link" and "continue reading >>".

To the right of the main post is a "The Deck" section featuring an advertisement for "(mt) Media Temple" with the text: "Lost in the cloud? Unfluff your web hosting. (mt) Media Temple. Ad via The Deck". Below this is a "Come let us Hire Authentic Jobs" section listing three job openings: "(Santa Monica, CA) Front-end Web/HTML/CSS Devele...", "(Santa Monica, CA) Software Developer (Ruby on Rai...", and "(Freelance) Sr. Front End Developer for Consumer-W...". A button at the bottom of this section says "Post your own job opening and reach designers everywhere >>".

On the far right, there is a "Veerle's art" section with two illustrations: one for "Espresso application startscreen" and another for "art/type elsewhere" featuring colorful letters and objects. Each illustration has a "view in detail" link.

The bottom of the page features a search bar with a "GO" button and a footer with logos for "Front-End design conference", "ExpressionEngine", and "fortyseven media".

COMMUNITY

They get behind a fellow.

The screenshot shows a web browser window with the address bar containing "http://expressionengine.com/docs/". The page title is "ExpressionEngine Documentation". The navigation menu includes "Return to ExpressionEngine", "User Guide" (highlighted), "Knowledge Base", "Wiki", "Forum", "Developers", "Bug Tracker", and "Support Center". The main content area is titled "ExpressionEngine 1.6.8 User Guide" and includes a search bar labeled "Search User Guide". Below the title, there is a section titled "Areas of Documentation" with a list of links and descriptions:

- [License Agreement](#)
The terms and conditions under which ExpressionEngine can be legally used.
- [Requirements](#)
Server requirements for running ExpressionEngine
- [Change Log](#)
A list of new features, changes, bug fixes in the current version
- [Installation and Updating Instructions](#)
Step-by-step installation instructions and detailed instructions for updating to the most current release.
- [Getting Started with ExpressionEngine](#)
Start with a big picture overview then learn the fundamentals by creating a simple two page website.
- [Video Tutorials](#)
The videos introduce the basic concepts of working with ExpressionEngine.
- [The Control Panel](#)
Detailed information regarding the ExpressionEngine Control Panel and its many features.
- [General Information](#)
General information regarding ExpressionEngine including data caching, text formatting, Spam Protection, and more.
- [Templating System](#)
Learn to use ExpressionEngine's advanced templating and tagging system to build dynamic pages.
- [Modules and Tags](#)
Reference guide for incorporating ExpressionEngine's many modules and features into your pages.
- [Multiple Site Manager](#)

Knowledge Base

Installation & Upgrading (5)

Common questions about installing and upgrading ExpressionEngine

ExpressionEngine Basics (14)

General information on some of the "broad strokes" of using ExpressionEngine.

How do I find... (3)

Entry ID's, Weblog ID's, License numbers--if you're trying to locate something, you'll find it here.

Frequently Asked Questions (41)

The most common Pre-Sales questions on licensing, ExpressionEngine, support, and related information.

Control Panel (13)

Questions dealing with using the Control Panel: behavior troubles and how-tos.

Customization (9)

Make ExpressionEngine your own. Customize features and give yourself additional control.

Members & Groups (5)

"Members only" content, working with member groups, member templates, and member privileges.

Templates (49)

Help with CSS, design, displaying entries, using PHP, RSS and Atom feeds, tags, variables, and conditionals.

Modules (15)

Assistance with ExpressionEngine Modules: Discussion Forum, Referrer, Blacklist, etc.

Technical Issues (62)

Error message explained, helpful site maintenance tips, and troubleshooting problems.

Miscellaneous (10)

Issues that don't necessarily relate directly to ExpressionEngine, but that can affect it or are very helpful in using it.

Common Questions

- How do I move EE to another server?
- I want a different design for my site / I don't want to use one of the default themes

Recently Added RSS / Atom

- IPN not being recorded by Simple Commerce module
- How many custom fields can my installation support?
- Can I use Really Simple Discovery (RSD) with the
